

NTHCS Digital Version Quick Start Guide

Teacher/Instructor:

Go to: <https://nthcs.nemours.org/teacher.php>

Enter your name and email in their respective fields then select which modules you wish to send to your students. You can preview the activities by clicking the preview link to the right of the module titles. When you decide which modules you want your students to complete, simply check/un-check the white boxes to the left of the module titles to select then click on the green submit button to send the activities to your students (see Figure 1a and 1b).

Figure 1a

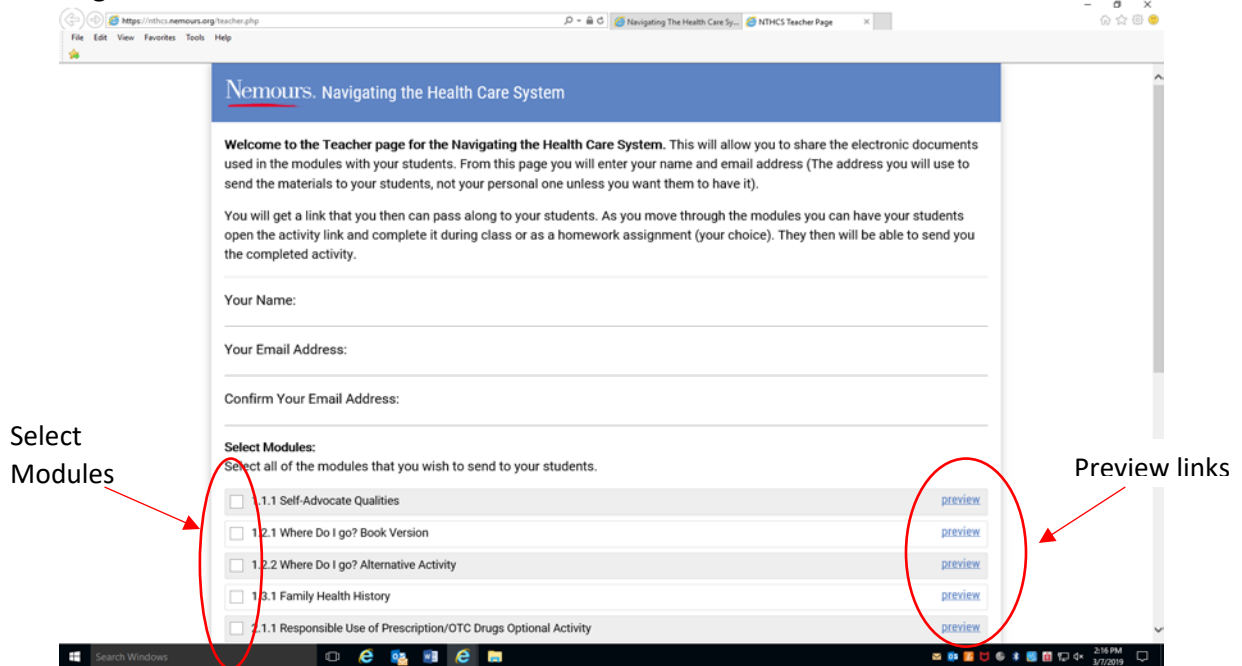

Figure 1b

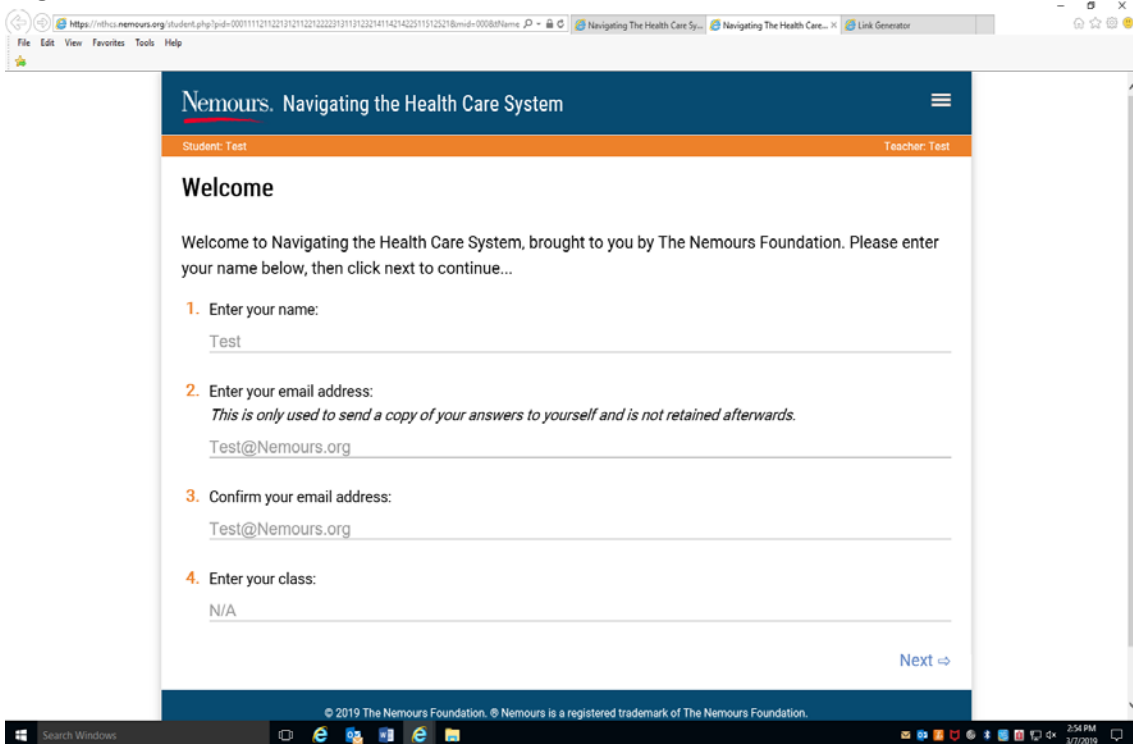

Explanation of Numbering System:

The first number indicates which module the activity is in. The second number indicates the activity number. The third number indicates which version or alternative of the activity. For example, activity 1.2.2 is from module 2, activity 2, and is an alternate “Where Do I go?” version.

Student:

The students will receive an email with a link to the activities you want them to complete. When they open the link they will enter their name, email, and class in the respective fields and click next (see Figure 2a). The email entered will be where a copy of answers will be sent.

Figure 2a

The screenshot shows a web browser window displaying the Nemours Navigating the Health Care System student registration page. The browser's address bar shows a URL starting with 'https://nhcs.nemours.org/student.php?'. The page has a dark blue header with the Nemours logo and the text 'Navigating the Health Care System'. Below the header, there is a navigation bar with 'Student: Test' on the left and 'Teacher: Test' on the right. The main content area is white and contains a 'Welcome' message: 'Welcome to Navigating the Health Care System, brought to you by The Nemours Foundation. Please enter your name below, then click next to continue...'. There are four numbered steps for registration: 1. Enter your name: with a text input field containing 'Test'; 2. Enter your email address: with a text input field containing 'Test@Nemours.org' and a note below it: 'This is only used to send a copy of your answers to yourself and is not retained afterwards.'; 3. Confirm your email address: with a text input field containing 'Test@Nemours.org'; 4. Enter your class: with a text input field containing 'N/A'. A blue 'Next >' button is located at the bottom right of the form. The footer of the page contains the copyright notice: '© 2019 The Nemours Foundation. © Nemours is a registered trademark of The Nemours Foundation.' The Windows taskbar is visible at the bottom of the screen, showing the time as 2:54 PM on 1/27/2019.

As the student completes the activities, they can save their work as they go. When ALL activities assigned are complete, they will hit “send” to send the Instructor/Teacher and themselves a copy of their work. Do **NOT** send prior to completing all activities, this will erase all answers from the server. Figure 2b for an explanation of buttons found in the side panel of the module activities.

Figure 2b

“Save”
Saves current responses

“Send”
Sends responses to student and teacher email, and gets deleted from the server

“Reset Page”
Deletes all responses on the *current* page

“Reset Page”
Deletes *all* responses from *every* page

Some modules, such as Reading OTC Drug Label Activities require resources to complete the activity. They are linked on the right side of the screen. After clicking “Drug Label,” (see Figure 3a) the label pop-up will appear in the center of the screen. Click the “x” in the top right corner to close the pop-up (see Figure 3b). This will allow the student to use the label to complete the activity.
