

Exploring the Roles & Functions of Health Systems within Population Health Integrator Networks

Project Timeline & Content Dashboard

This document provides an at-a-glance timeline and dashboard for content developed within the “[Exploring the Roles & Functions of Health Systems within Population Health Integrator Networks](#)” initiative.

The two-year initiative included a series of activities with integrator networks from around the country. The work was also informed by a number of academics and experts in the related fields of health care, public health, population health, health equity, and multi-sector networks. The phases of work and documents produced are as follows:

Revisiting and Refining the Integrator Concept

- Completed a [summary of evidence](#) related to integrators and multi-sector population health networks. Evidence informed Nemours' thinking on the design of various elements of the initiative.

Summer &
Fall 2019

Winter 2018 &
Spring 2019

- [Interviewed 40 experts](#) engaged in academic work and/or real-world work related to integrators and population health networks.

- [Published themes](#) from expert interviews: “*Preliminary Findings on the Role of Health Care in Multi-Sector Networks for Population Health: Notes from the Field*”.
- [Selected networks](#) to participate in Integrator Learning Lab.
- Built a cadre of experts to serve as [faculty](#) for the Lab.

Winter 2019
& Spring 2020

Testing, Applying, and Further Refining the Best/Promising Practices for Integrators

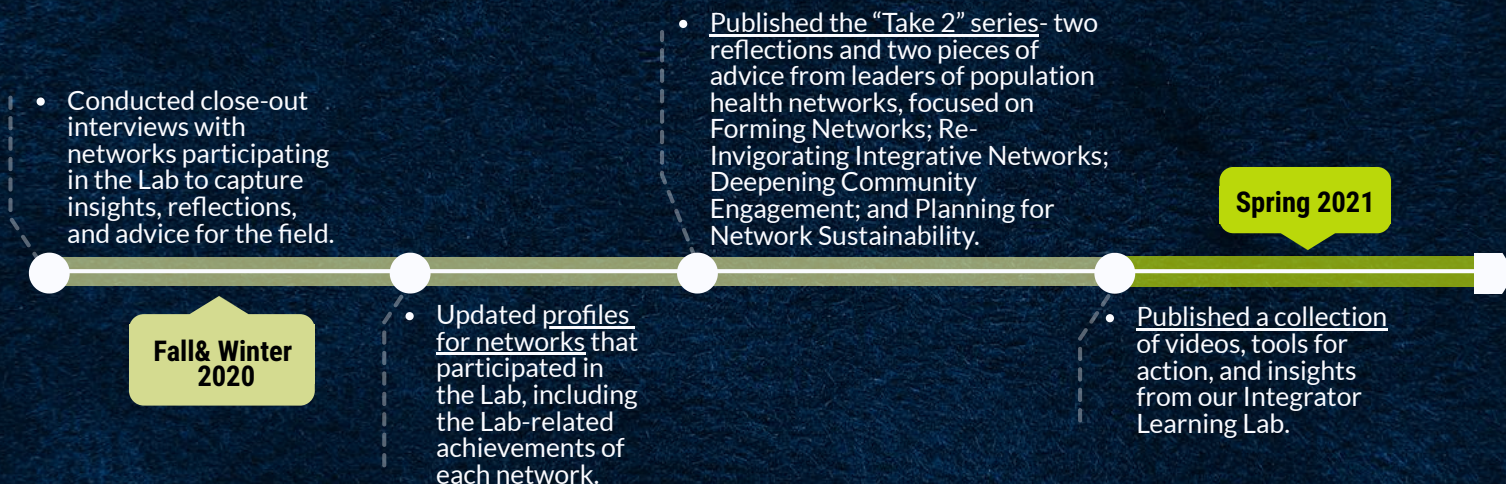

- Facilitated the [Nemours 2020 Integrator Learning Lab](#)- a learning collaborative focused on strengthening use of integrative roles and functions within population health networks.
