

Signing Up For Kahoot!

In order to play Kahoot! with your classes, you need to create a free account. Your free account allows you to access the “Responsible Prescription & OTC Drug Use” Quiz, along with thousands of other quizzes created by other Kahoot! Users. It is an awesome tool that also allows you to create your own quizzes to use for other topics!

1. Type **create.kahoot.it** into your internet browser.

2. In the top right hand corner of the page, click on “Get My Free Account”.

3. Choose your role at your school.

4. Complete the basic account details and click **“Create Account”**. As long as you are signed in to your account, you should be able to access any public Kahoot! quizzes and create your own.

The screenshot shows the Kahoot! account registration page. The browser address bar displays <https://create.kahoot.it/account/register/>. The page has a light gray background with a white registration form in the center. At the top of the form, it says "GET YOUR FREE ACCOUNT" in large blue letters, followed by "SCHOOLS, UNIVERSITIES OR BUSINESSES" in smaller black letters. The form is divided into two numbered steps. Step 1, "WHAT'S YOUR ROLE?", has a dropdown menu with "I'm a teacher" selected. A red arrow points to the "School or University" option below it. Step 2, "YOUR ACCOUNT DETAILS", has four input fields: "Username", "Email", "Confirm Email", and "Password". Each of these fields has a red arrow pointing to it from the left. Below the input fields is a purple button labeled "CREATE ACCOUNT". At the bottom of the form, there is a line of small text: "By signing up you agree to the [terms](#), [privacy policy](#) & [children's privacy policy](#)." Below that, in even smaller text, it says "If you are stuck, please [let us know](#)." On the right side of the page, there is a vertical "Kahoot! Support" button.
